Le Marche

Loro Piceno

6570: Newly built energy-efficient farmhouse with two apartments, panoramic views and customisation potential in Le Marche.
Prezzo: € 290.000

Set amidst the rolling hills of Le Marche, Casa Antonella is a newly built Marche-style farmhouse offering panoramic countryside views and modern, energy-efficient living. Located near the charming villages of Loro Piceno and Sant'Angelo in Pontano, the property enjoys a peaceful rural setting with excellent accessibility via well-maintained municipal roads.

Built in accordance with the latest anti-seismic regulations and awarded an Energy Class A rating, the farmhouse combines traditional architectural character with contemporary construction standards. One of its most attractive features is the opportunity to customise part of the property, making it suitable for a variety of residential or hospitality purposes.

The farmhouse is divided into two independent apartments, each with its own private entrance, making it ideal for multi-generational living, guest accommodation or a small bed & breakfast.

The ground floor offers approximately 95 m² of living space and is largely finished. It comprises an open-plan kitchen, dining and living area, three additional rooms suitable as bedrooms, offices or flexible living spaces, and two bathrooms, one of which is ready for completion by the new owner.

The living area opens onto a spacious 34 m² covered portico, providing an ideal setting for outdoor dining while enjoying the surrounding landscape. An additional entrance hall of approximately 11.5 m² completes this level.

The first floor offers approximately 127 m² and is currently in shell condition (a grezzo), allowing the future owner to complete the layout and finishes according to their own requirements. The floor also benefits from a generous 24 m² panoramic balcony overlooking the countryside.

Above the first floor is a further 127 m² attic, also in shell condition and included as part of the upper apartment, offering additional living or storage potential.

The property is offered with approximately 2,270 m² of land surrounding the farmhouse, providing ample space for gardens, terraces or outdoor living. There is also the option to purchase the property with a total of 11,090 m² of land, creating even greater privacy and opportunities for agricultural or recreational use.

Casa Antonella enjoys a peaceful location in the countryside between Loro Piceno and Sant'Angelo in Pontano, surrounded by the characteristic rolling hills of Le Marche. Everyday amenities are just a few minutes away, while the Adriatic coast can be reached in approximately 40 minutes.

Offering modern construction, flexible living arrangements and the opportunity to complete the upper floor according to your own vision, Casa Antonella is well suited as a permanent residence, holiday home or property with rental potential in the heart of Le Marche.
